WH 751 AIR COIL WINDER WITH HOT-AIR BONDING

Many people believe that it is impossible to make air coils on a bench-top machine, but with the help of IWM

YOU can do it!

The advantages of making your own air coils include:-

Fast turn-around for prototypes Full control over the production process Flexibility and cost control

All you need is:-

A Wey Hwang 751 air coil winding package Tooling design and manufacture & IWM know-how!

Package includes:-

WH-751 bobbin winding machine Tensioner and wire guide as required Safety heat-shield Heat gun Manual tailstock

Precise control of the heatgun air temperature and air flow rate, and exact positioning of the nozzle, warm the wire and the tooling just enough to guarantee perfect adhesion of wire to wire, with correct release from the tooling.

ough to wire to wire, with correct and Wey Hwang's advanced machine controllability, ensure

Careful design of the tooling, and Wey Hwang's advanced machine controllability, ensure reliable wire entry and exit from the coil every time.

For the price of the tooling - refundable against machine order we can create tooling and wind you some samples to demonstrate quality (and cycle time) created from this package.

Exact Air flow &

Temperature control

are essential

Precision tooling creates precision coils

As these machines are custom made, please speak to us about the coil specification you wish to produce

We aim to be much more than a machinery supplier. Our team has a vast range of winding experience and is able to offer help and advice on all aspects of coil winding, from tooling design to machine choice and set-up.
